Career Objective

Computer Science student with a strong foundation in Software Engineering, backend development, and web application development using .NET, PHP, JavaScript, and databases. Experienced in building scalable applications and developing full-stack solutions, while expanding expertise in Flutter for cross-platform mobile development. Also skilled in Machine Learning, Deep Learning, Computer Vision, NLP, and Data Science with hands-on experience in developing AI models and intelligent systems. Eager to contribute to real-world software and information system projects while growing as a Software and AI Engineer.

Education

American International University-Bangladesh (AIUB) *Dhaka, Bangladesh*
BSc in Computer Science, Major in Information Systems — CGPA: 3.94 / 4.00 *2022 – Present*

Govt. Hazi Muhammad Mohsin College, Chattogram *2021*
Higher Secondary Certificate (Science) — GPA: 5.00 / 5.00

Government Muslim High School, Chattogram *2019*
Secondary School Certificate (Science) — GPA: 5.00 / 5.00

Technical Skills

Languages: Python, C#, PHP, Dart, JavaScript, C++, Java, R

Web & App Development: HTML, CSS, JavaScript, ReactJS, ASP.NET / .NET Core, PHP, Flutter

Databases: MySQL, SQL Server, Oracle

AI / ML: Supervised & Unsupervised Learning, Deep Learning, Computer Vision, NLP, Transfer Learning

ML Frameworks: TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV, Pandas, NumPy, Matplotlib, Seaborn

Data Science: Data Preprocessing Cleaning, Exploratory Data Analysis (EDA), Feature Engineering, Data Visualization, Statistical Analysis

Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Visual Studio, Android Studio, XAMPP, MATLAB

Projects

Online Shopping Web Application | 🌐 *HTML, CSS, JS, PHP, AJAX, MySQL*
Built a dynamic e-commerce site with user authentication, product/user management, and a checkout system using XAMPP.

CVPR Coursework Projects | 🌐 *TensorFlow, Keras, NumPy*
Implemented AlexNet-style CNN, k-NN classifier, and NumPy-based neural network; achieved up to 99–100% accuracy.

Bus Ticket Management System | 🌐 *Oracle 10g, SQL*
Designed a relational database for managing passengers, tickets, buses, drivers, and conductors.

Super Shop Management System *C#, .NET Framework, MySQL*
Built an inventory, billing, and customer management system with sales tracking and purchase report generation.

Awards & Achievements

- **Dean's Award for Academic Excellence** — AIUB (Fall 2023–24, Spring 2023–24, Fall 2024–25)
- **Merit-Based Scholarship (60%)** — AIUB, awarded based on academic excellence
